# BSC (HONS) TOP UP DEGREE

## MARITIME OPERATIONS MANAGEMENT

This is a future-focused programme that will enable you to develop the essential knowledge and skills preparing you for future success in your career and life across the maritime industry.

### ABOUT THIS PROGRAMME

The programme is validated by the prestigious Lancaster University - who have celebrated its future-focused approach - and is aligned to both the current and future needs of the entire maritime industry, with emphasis on the technical management of resources, emerging/future technologies and the management of data, projects and green shipping.

Out of over 120 universities, Lancaster University consistently ranks in the top ten in the three main league tables. They have recently won two major awards from The Times and the Sunday Times Good University Guide and were named the International University of the Year in the 2020 guide.

### WHAT ROLES DOES IT MAKE ME SUITABLE FOR?

Successful completion of the programme, could lead to a number of roles across the maritime industry such as:

- + Port Manager
- + Fleet Manager/Superintendent
- + Ship Manager
- + Maritime Administration/Business Services
- + Maritime Education and Training Manager
- + Marine Surveyor

### ACADEMIC PROGRESSION

A level 6 BSc (Hons) qualification can take you into higher positions within the industry, a research profession, or teaching careers in further and higher education.

### ENTRY REQUIREMENTS

Entrants onto the programme will have successfully completed a relevant level 5 qualification, either the STCW-aligned Foundation Degree or Advanced Diploma/Higher National Diploma at **Fleetwood Nautical Campus** in the five years prior to BSc (Hons) course commencement.

Students enrolling onto the programme with an Advanced Diploma/Higher National Diploma will be required to undertake a three week pre-entry bridging module prior to the course commencement, which will be delivered via blended learning. Your programme will comprise the following modules, which are common across all three programme pathway options:

- + Digital Ship Management 20 credits
- + Green Ship Management 20 credits
- + Management of Maritime Projects 20 credits
- + Future Technologies module 20 credits
- + Dissertation, based on a subject of your choice, linked to your pathway and career aspirations 40 credits

## ON CAMPUS APPROACH

You will attend Fleetwood Nautical Campus for the full three terms of the programme.

**Term one:** Alongside your peers on the blended approach, you will experience face-to-face learning and teaching with module specialists.

**Terms two and three:** You will experience the remote learning and teaching sessions with your peers whilst based in a physical work environment at FNC. Your assessments will be submitted online. In support of your dissertation you will have face-to-face supervision with term 3 concluding with your dissertation and presentation.

## WHAT'S INVOLVED?

The BSc (Hons) Maritime Operations Management offers two study options - a flexible blended approach or an on-site approach.

The programme requires on-site attendance for lectures, seminars and workshops at Fleetwood Nautical Campus for the first term of delivery (up to 14 weeks) in line with your study timetable.

You then have the opportunity to move into a flexible blended delivery of the programme, enabling you to study remotely for the second term of delivery or remain on-site for the full programme.

For each hour of lecturer contact, you can typically expect to undertake an additional 2-3 hours of work.

## FLEXIBLE BLENDED APPROACH

**Term one:** You will attend Fleetwood Nautical Campus for the first term where all learning and teaching sessions will be face-to-face with module specialists and your peers.

**Terms two and three:** The subsequent two terms you will complete via remote learning. You will not be expected to attend any face-to-face sessions and your assessments will be submitted online.

## GRADUATE OUTCOMES

The following strands linked to graduate outcomes have been identified for the programme:

- + Lifelong learning and career development
- + Collaborative teamwork and leadership skills
- + Personal and intellectual autonomy
- + Ethical, social and professional undertaking
- + Communication, information and digital literacies
- + Global citizenship
- + Research, scholarship and enquiry skills
- + Enterprise and entrepreneurial awareness and capabilities
